

DynaSis 

Case Study: Toland Mizell Molnar

The Client

Toland Mizell Molnar manages Architectural and Engineering Contracts for the Federal Government with emphasis on healthcare specialties.

The Challenge

Before working with DynaSis, Toland Mizell Molnar was having issues regarding their data backups and equipment. They wanted to have their data backed up on an hourly basis and an equipment replacement schedule in place. They started their search for a Managed Service Provider to help them manage their IT issues.

After speaking with numerous Managed IT Support Providers; Chas Arnold, DynaSis' EVP/Principal, provided the most comprehensive and detailed plan. Chas and the DynaSis team ran a Network and Security Assessment for Toland Mizell Molnar. The findings and recommendations were reviewed, and a plan was put into place. DynaSis provided Toland Mizell Molnar with a structured IT plan that made them feel comfortable and stay within their allocated budget.

“DynaSis builds great relationships and the project managers take the time to understand your business and how they can positively impact your day.”
